Hospital Performance Dashboard

Hospital Performance Analysis Using Power BI

Prepared by

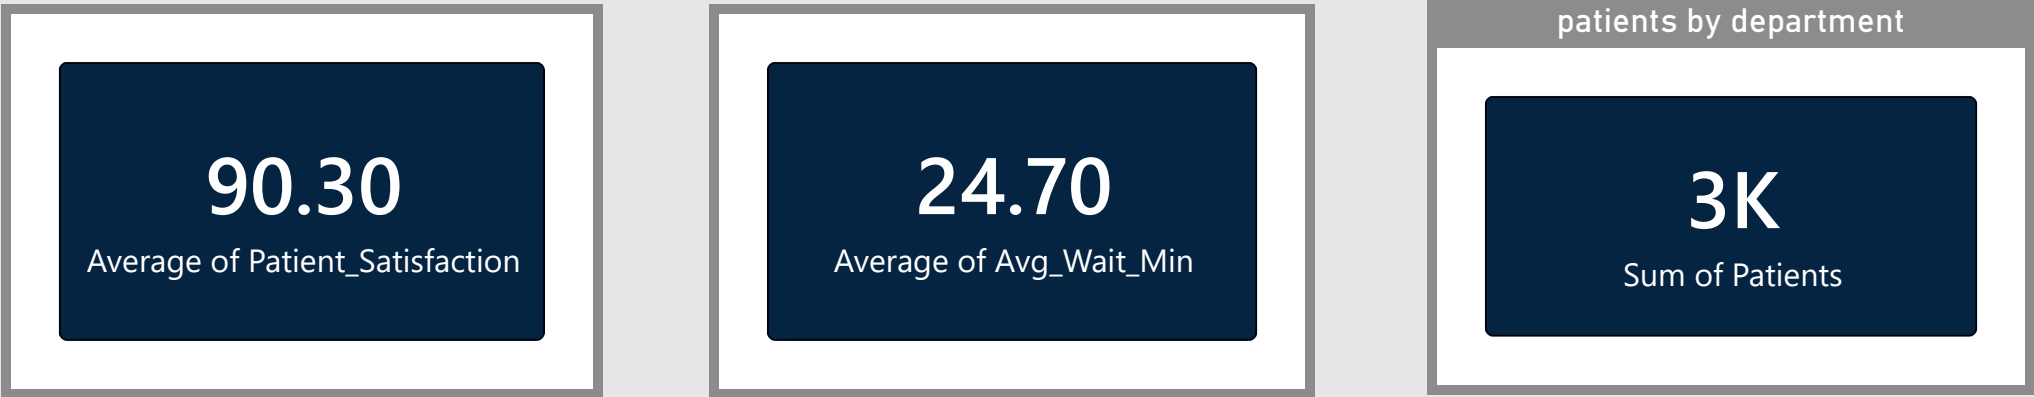

Rana Nasser Amri

Power BI Portfolio Project

July 2026

Executive Overview

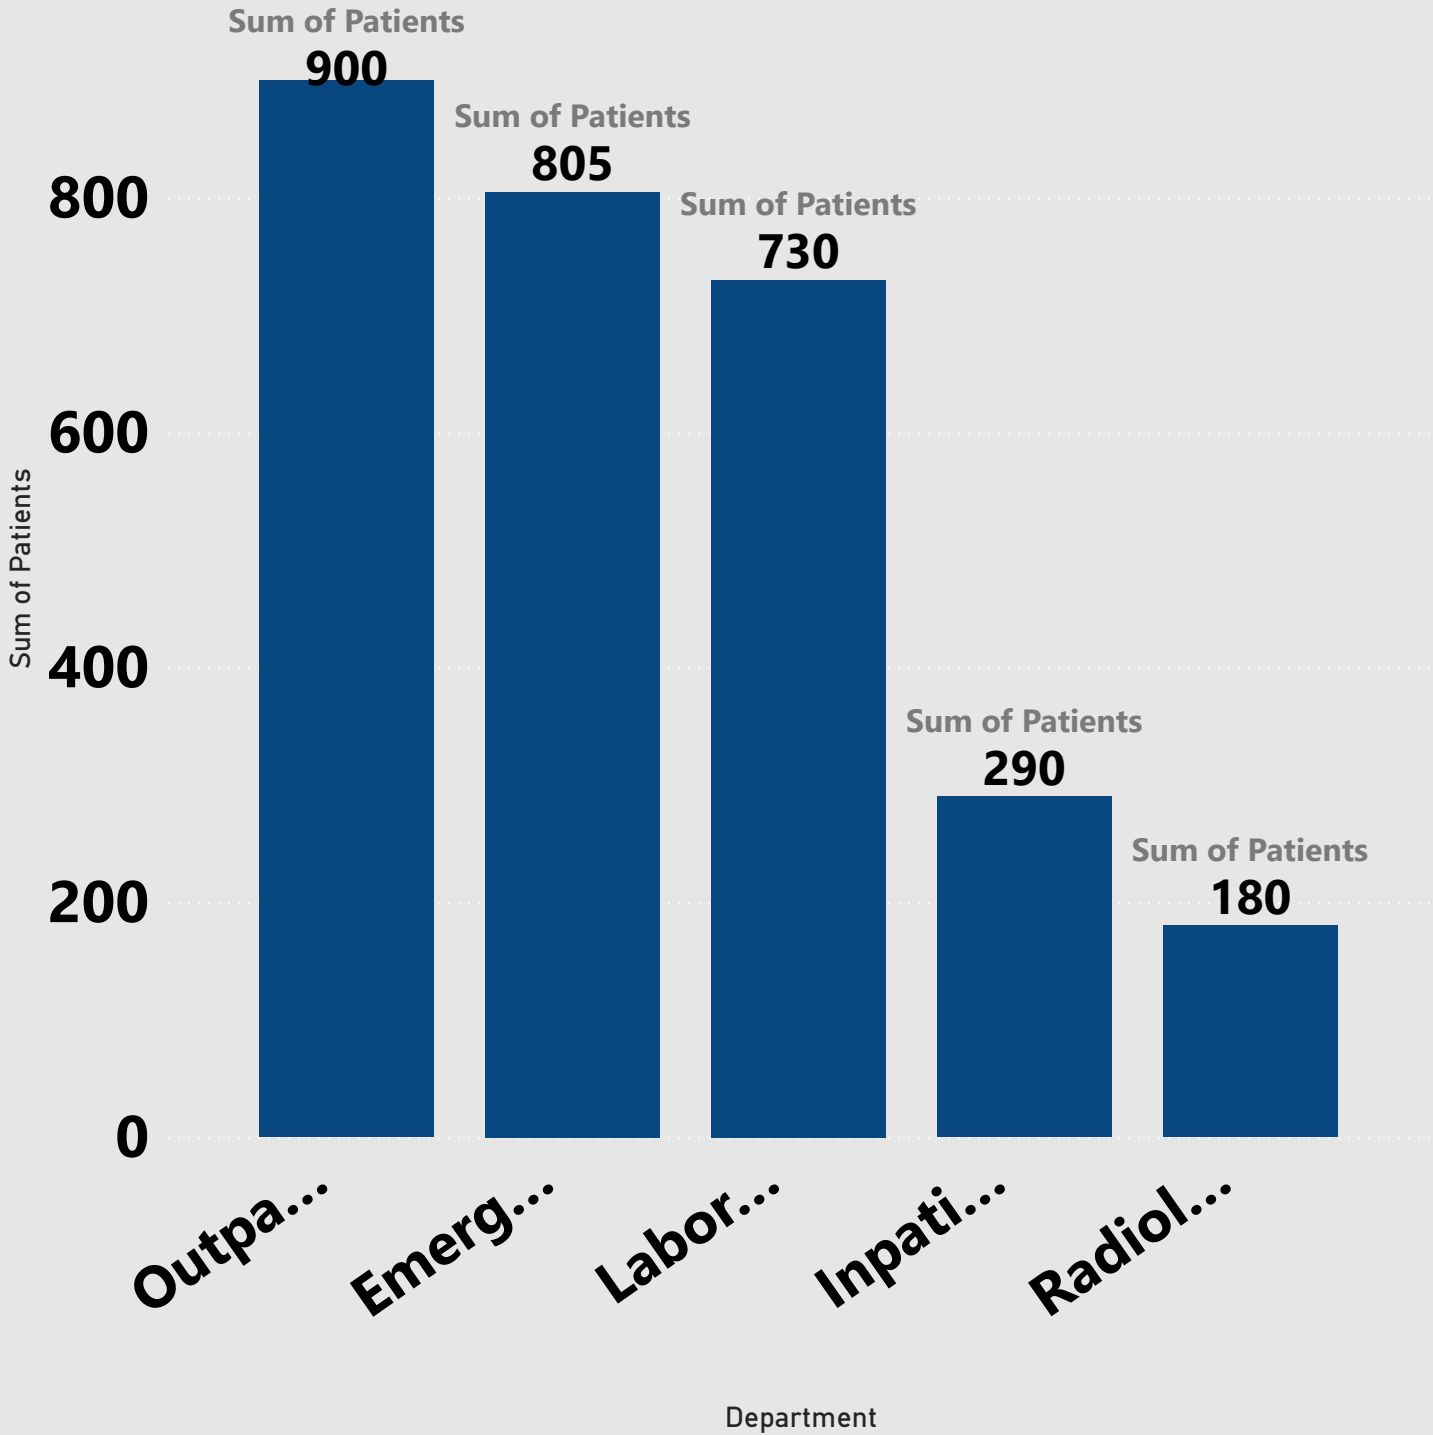

Project Objective: Monitor hospital performance using key metrics such as patient volume, patient satisfaction, waiting time, and department distribution.

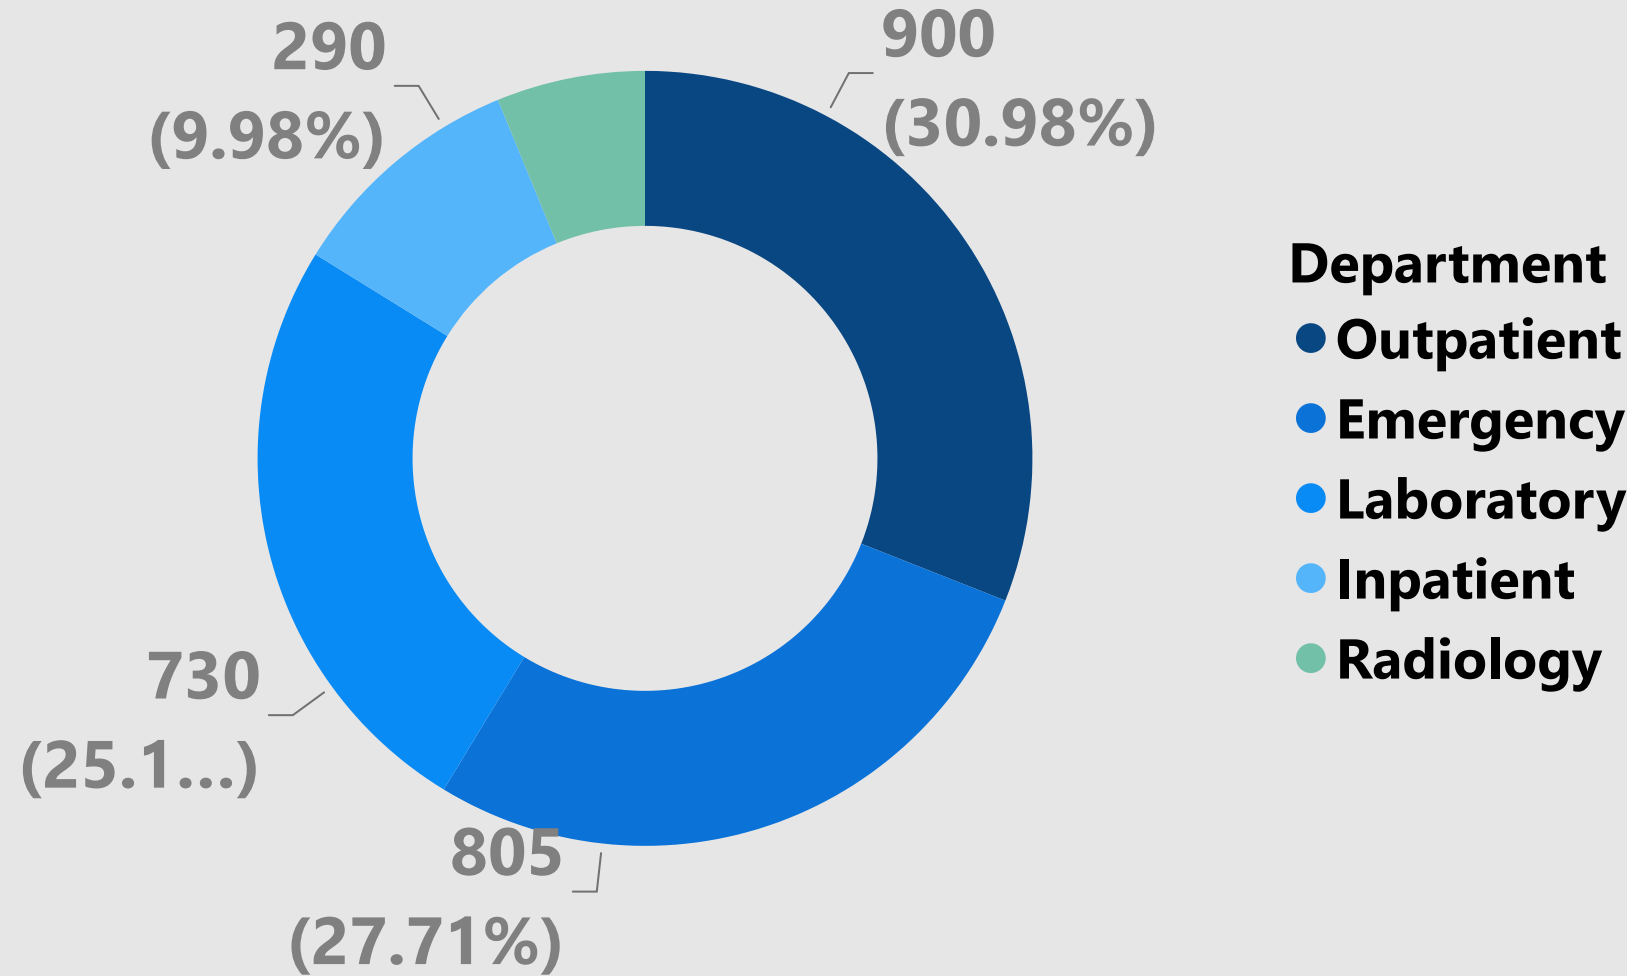

Hospital

Patients by Department

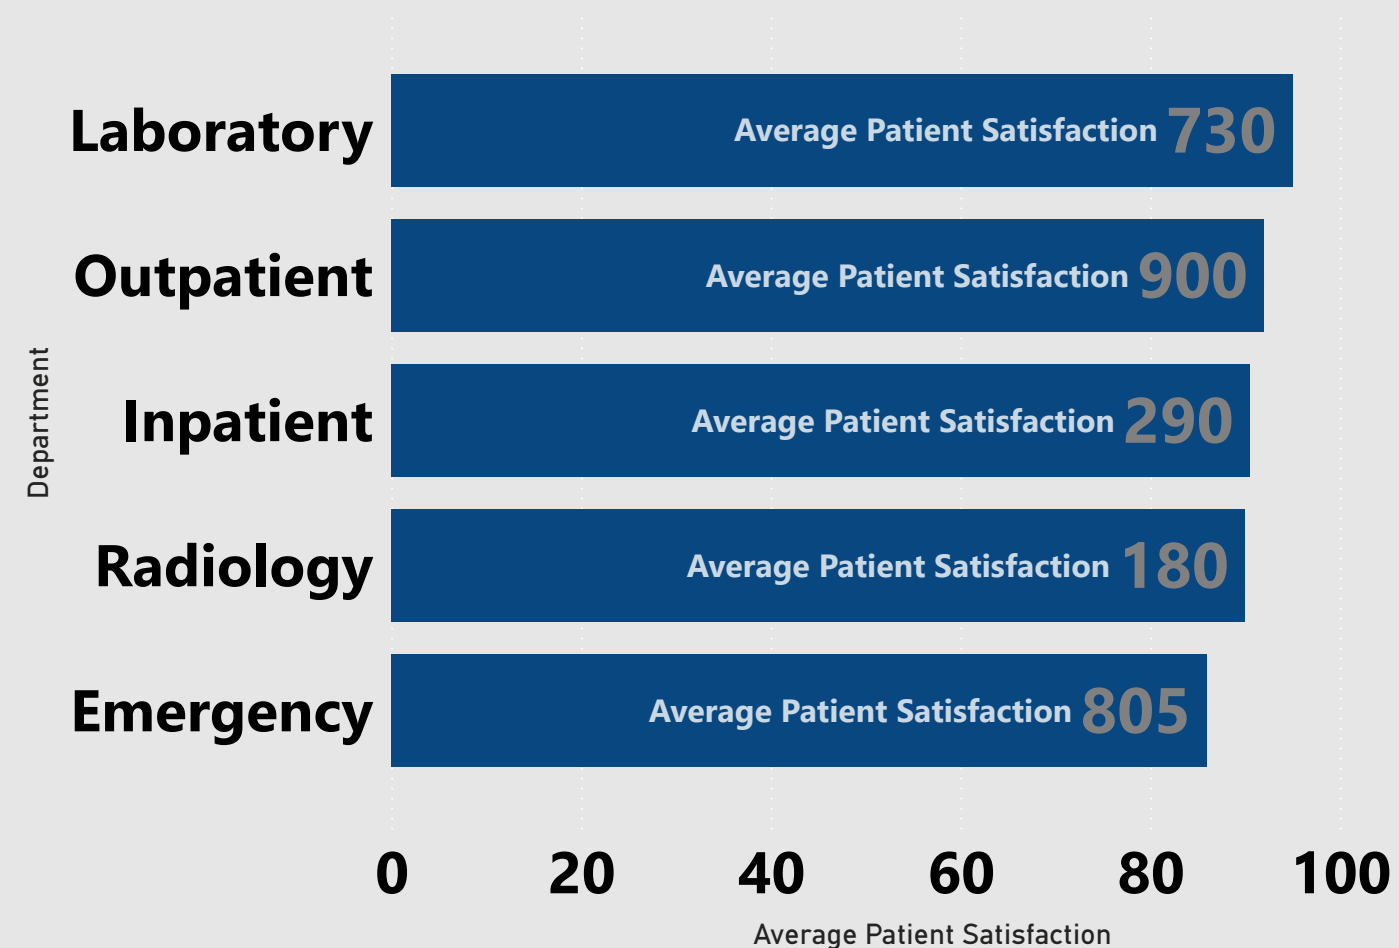

Total Patients by Department

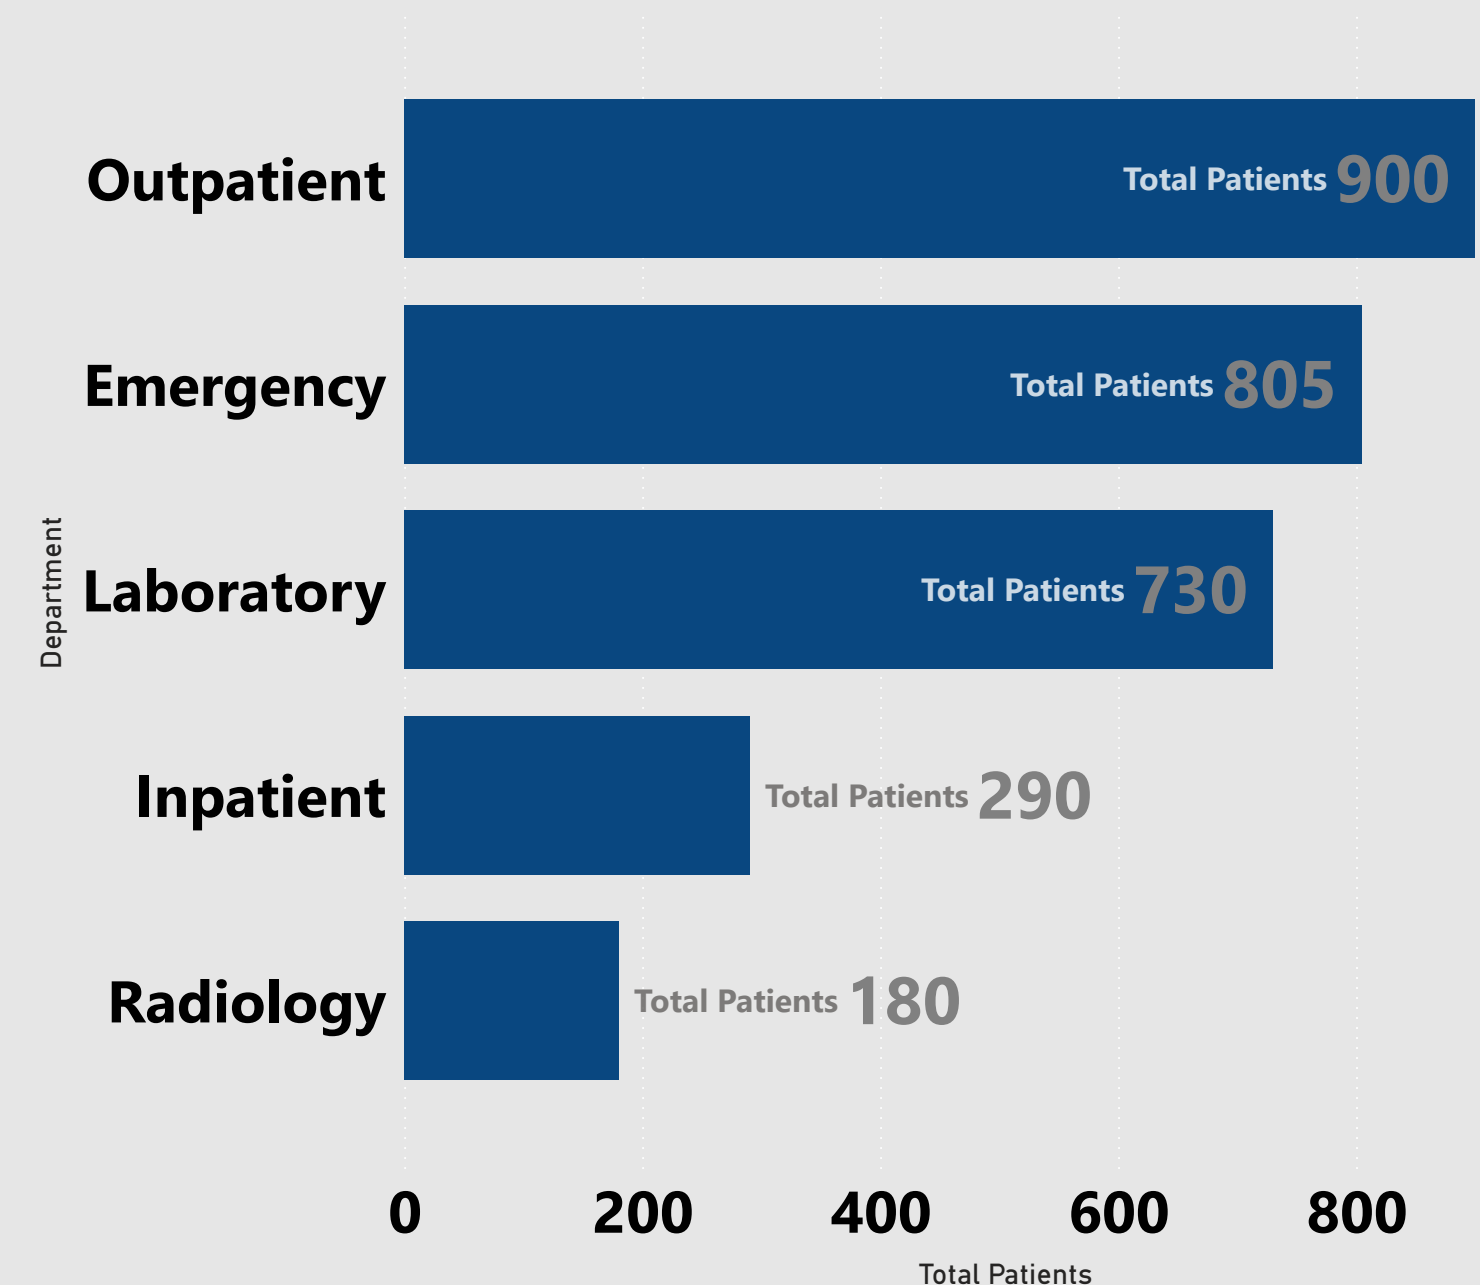

Department Analysis

Analyze department performance based on patient volume, satisfaction, and waiting time.

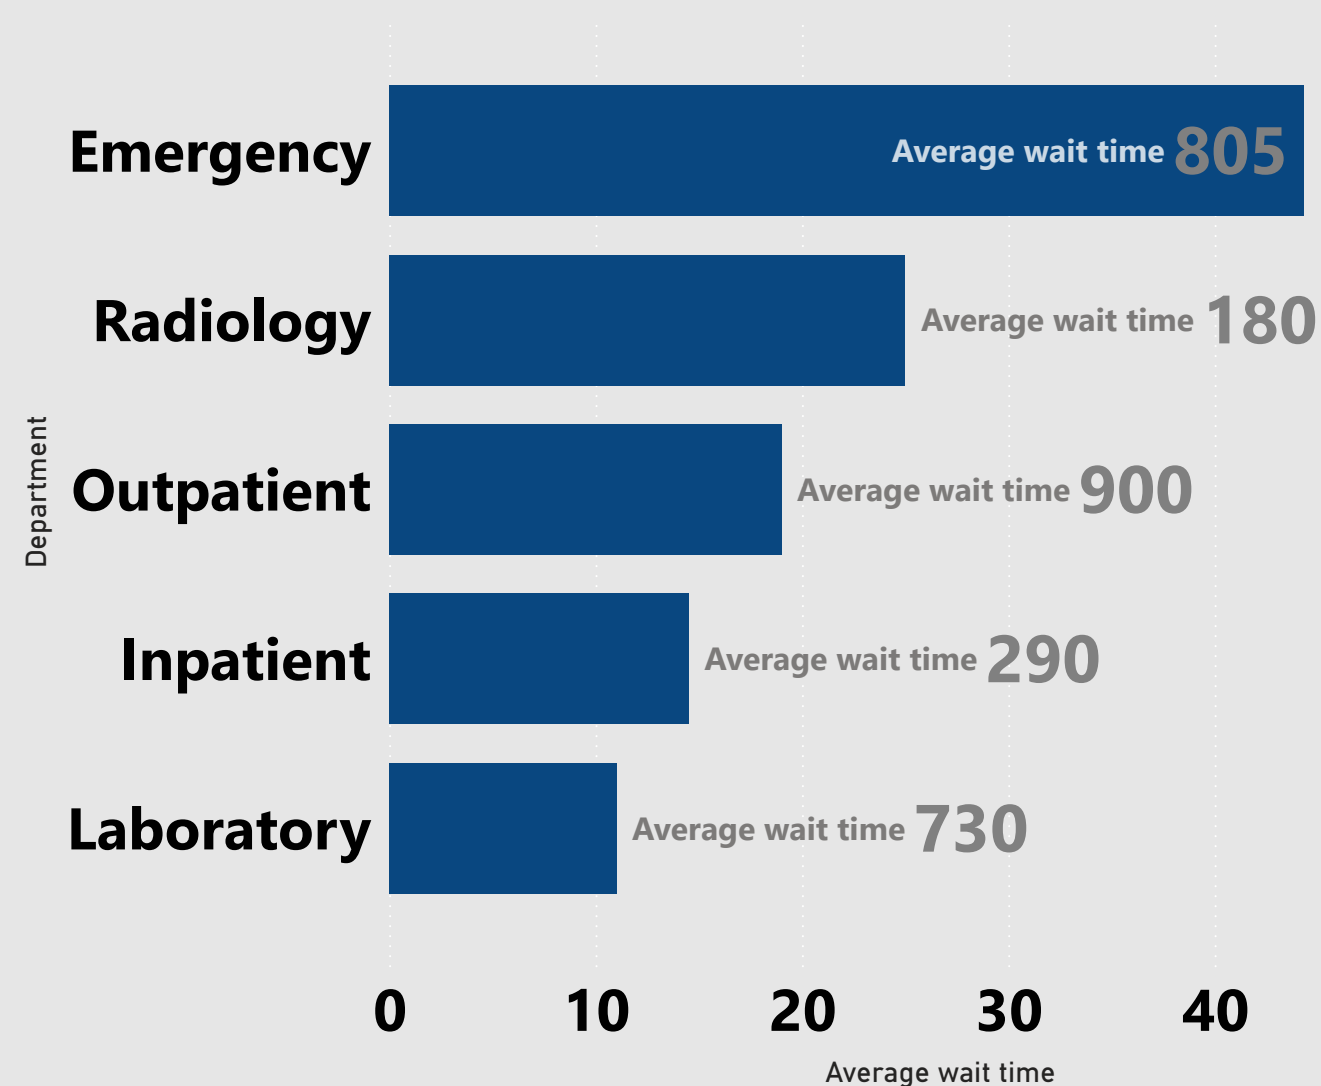

Average Patient Satisfaction by Department

Total Patients by Department

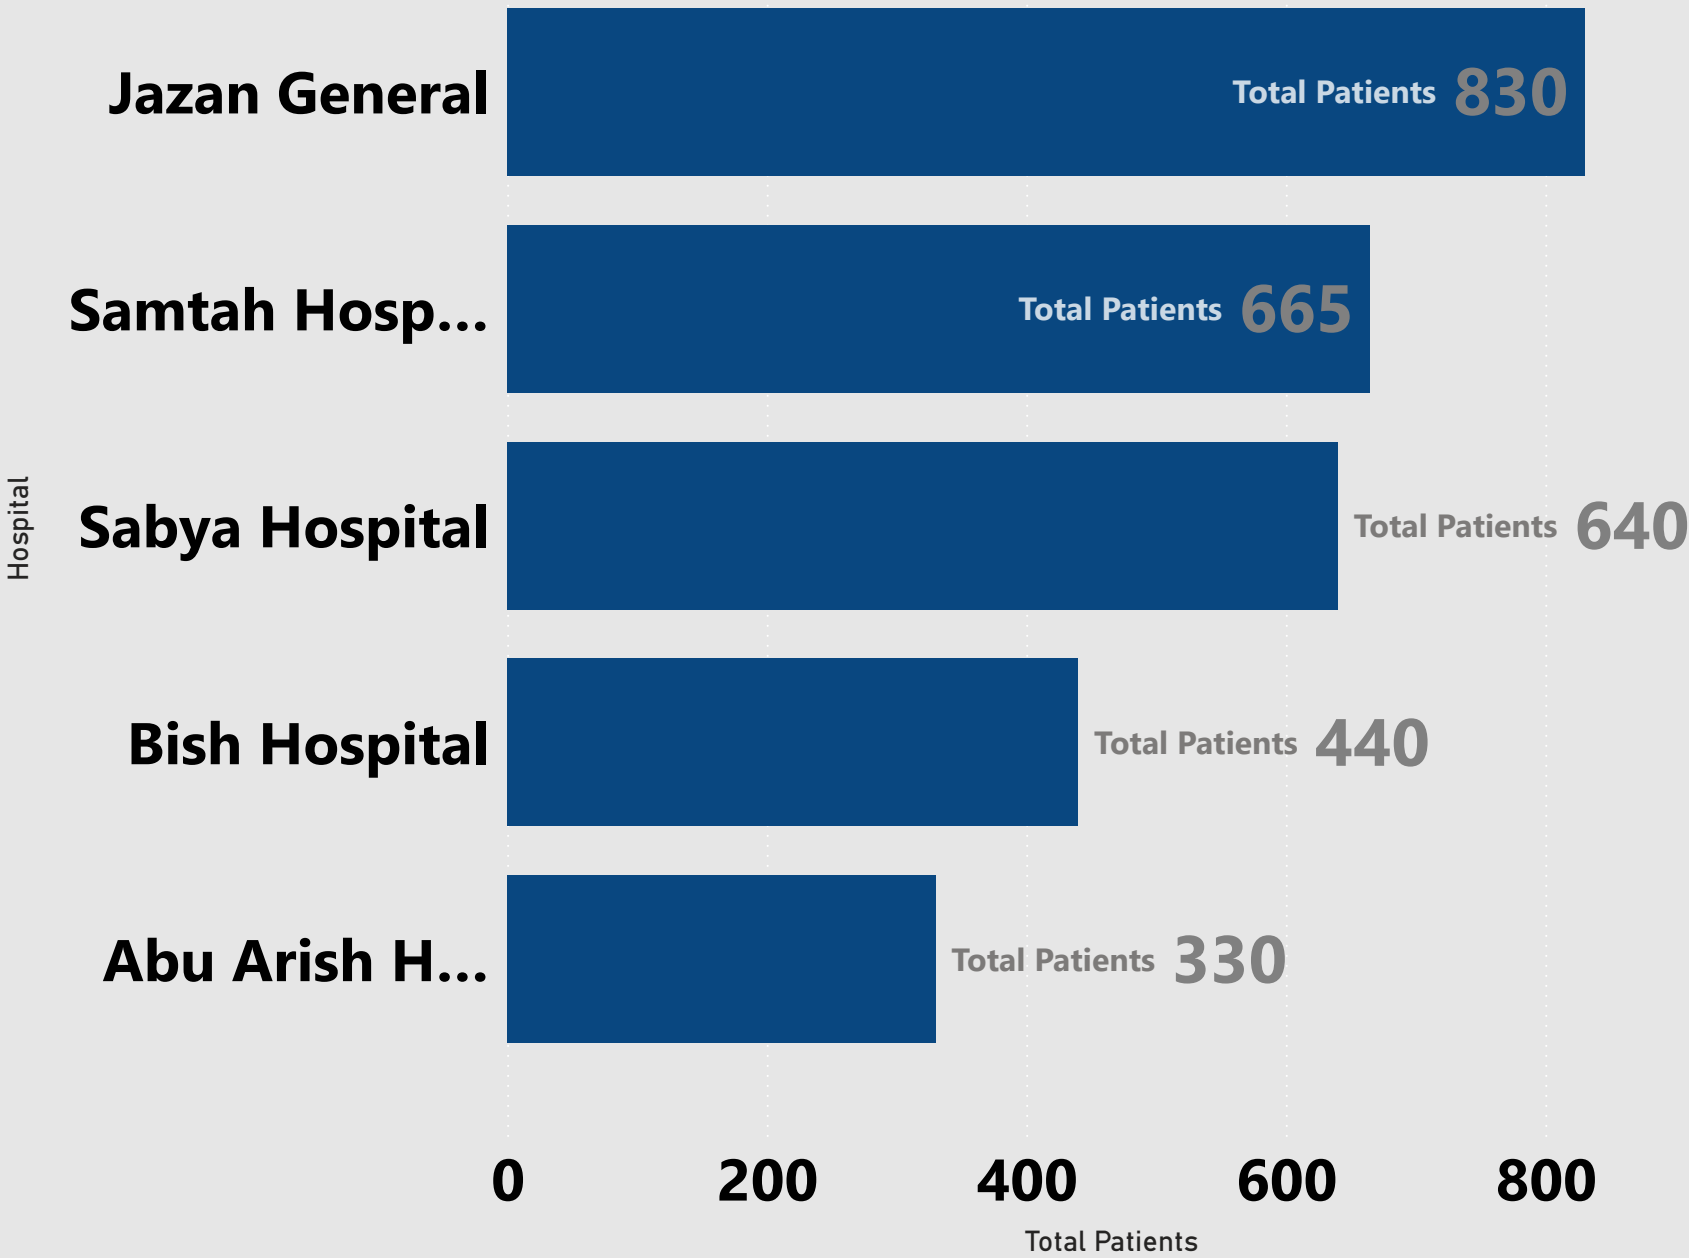

Average wait time by Department

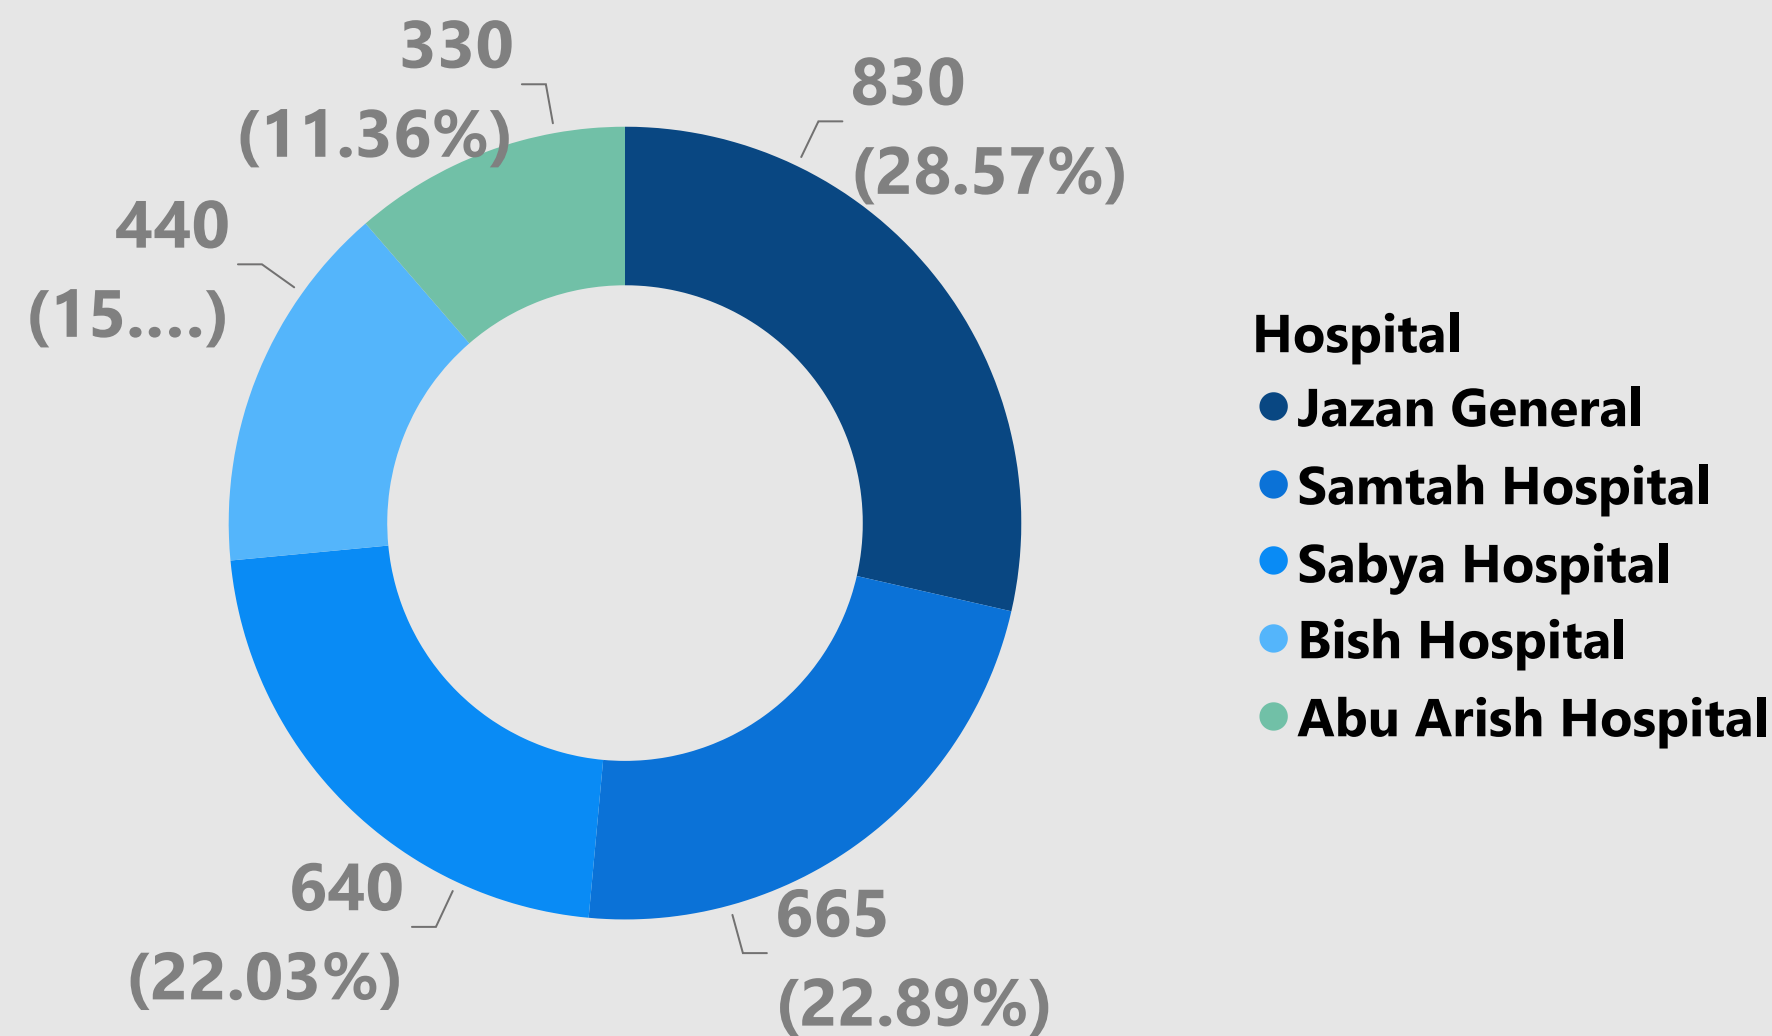

Hospital Analysis

Analyze hospital performance by comparing patient volume, patient satisfaction, and waiting time across hospitals.

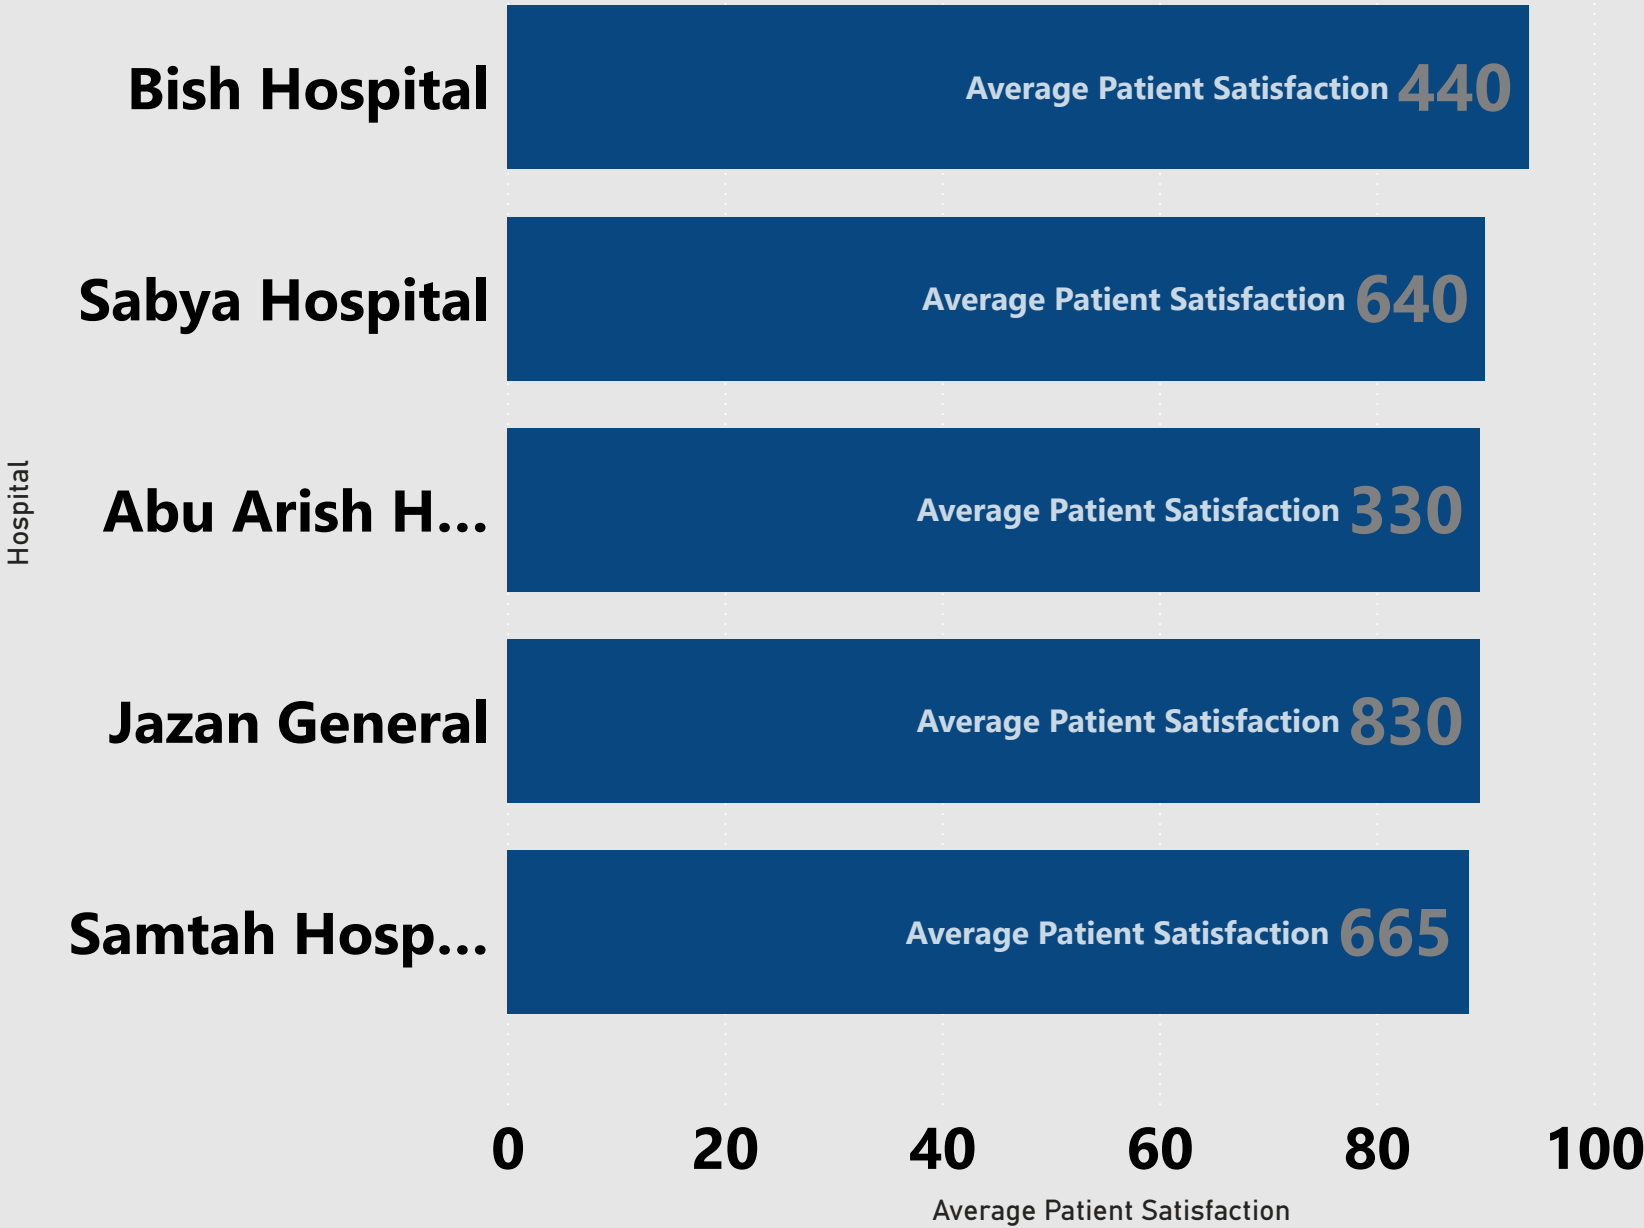

Total Patients by Hospital

Patient Distribution by Hospital

Average Patient Satisfaction by Hospital

Average Bed Occupancy by Hospital
